

**HE Space** is a successful international space company. For 40 years, we have been supporting our customers with qualified experts in the field of engineering, science and administration. HE Space has joined forces with CS Group to lead the engineering and digital space market in Europe and to provide highly skilled consulting.

## Security Operation Center (SOC) Operator

### Key Tasks and Responsibilities

As part of EUSPA, you will have the following responsibilities:

- Operating the security monitoring and incident response systems deployed at GSMC for supervising the security and system status of the system using dedicated security tools;
- Incident handling of any security alerts raised by the GSMC security tools by following operational procedures which cover security alert monitoring, incident categorisation and triage, incident response strategy and definition of recovery strategies;
- Contributing to the review and refinement of the incident handling processes in order to optimise GSMC incident response capabilities;
- Maintaining the lessons learnt knowledge base following incident closures;
- Supporting the EUSPA Operational Analysts daily tasks;

### Skills & Experience

You will have the following qualifications and relevant experience:

- Bachelor's in aerospace engineering or a relevant discipline.
- Minimum 2 years of experience in ground segment operations.
- Customer focus mentality;
- Fluency in English is mandatory; knowledge of another European language is an advantage.

This job is located in **Toulouse or Paris**.
